Features  
Below:

**New INVOLUTE JAW CURVE**—Gives tooth contact on FOUR points of nuts — increases tooth-contact on round work. Used as clamp, pressure can be applied exactly where wanted.

**New KNULED JAW TIPS**—Holds work at the very tip with non-slip grip.

**New THIN NOSE**—gets into close quarters.

**New WIRE CUTTER**—cuts wire and small bolts.

Built of special alloy steels and heat-treated for utmost toughness. Light, trim, streamlined. Nickel-plated finish.

### VISE-GRIP Sheet Metal Tool

LOCKS to work with powerful grip. Material cannot slip, giving a smoother, more accurate bending and shaping job.

Eliminates tiresome hand-gripping.

Where a Locked Grip is not needed, merely tighten end-screw so the jaws give non-locking Plier Action. Does all kinds of bending, forming and crimping, locks templates to blank sheets, holds sheet metal strips for welding, works inside stacks, bends lead strips, etc.

### VISE-GRIP Welding Clamp

Simply place the U-shape jaws over the edges to be welded—close toggle lever

—this LOCKS the jaws to work with powerful grip. The edges are aligned instantly. HELD securely — freeing both hands for welding. Jaws provide excellent visibility and working space. Adjustable up to 1 1/2". Ideal for fender work, welding, soldering and riveting tin-work, sheet metal work, etc., holding steel rods, bars, pipes, etc. 9-inches long.
